MEMORANDUM FOR DAMIS USERS

SUBJECT: Software Version Description (SVD) for Installation Support Module (ISM)  
Drug and Alcohol Management Information System (DAMIS) Interim Change Package (ICP)  
P6A-AVM-10-04-A

1. Enclosed is ICP P6A-AVM-10-04-A which provides a formal change to the Drug and Alcohol Management Information System (DAMIS) ISM
2. Acknowledgement of installation of this ICP must be made IAW instructions provided in Enclosure 1.
3. This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
4. Security Implications: NONE.

## 1. Scope.

1. 1 Identification. This Software Version Description (SVD) applies to the Drug and Alcohol Management Information System (DAMIS) running on Army Standard Information Management System (ASIMS) and networked AIX operating system on UNIX platforms.

1. 2 System Overview. DAMIS is part of the ISM Project which is an Army-wide Major Automated Information System (MAIS) initiative. The primary objective of ISM is to enhance, through automation, installation management functions. ISM applications

P6A-AVM-10-04-A.txt

consist of standard procedures packaged into functional applications which automate as well as integrate day-to-day installation processes. ISM applications use the Installation Level Integrated Data Base (ILIDB), which is the central repository for data that is common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

The purpose of the DAMIS ISM is to automate installation-level support for identifying and tracking alcohol or other drug abusers. The system sponsor is the United States Army Drug and Alcohol Operations Agency (USADA0A). The users and operators of the system are the personnel employed at installation Alcohol and Drug Abuse Prevention and Control Programs (ADAPCP).

This system also provides installation commanders and Department of Defense (DOD) policy makers with statistical information on alcohol and other drug abuse in the Army and the effectiveness of the ADAPCP.

DAMIS provides current and historical information to those individuals responsible for monitoring the abuse of alcohol and other drugs and for determining whether the ADAPCP is an effective means of eliminating abuse and rehabilitating their personnel.

1.3 Document Overview. This document provides the instructions necessary for the implementation of the formal Interim Change Package (ICP) P6A-AVM-10-04-A of DAMIS. It informs the users of the changes made to the system and provides Point of Contacts (POCs) to be contacted in case of problems.

2. Referenced Documents.

2.1 Referenced Documents. This paragraph has been tailored out.

3. Version Description.

3.1 Inventory of Materials Released. This paragraph has been tailored out.

1

3.2 Inventory of Software Contents. Hardware platform - ASIMS/ UNIX AIX OS users (Installation supported).

This change package contains the following files.

PROGRAM	VERSION	UPDATE
dami s_1004. cpi o. Z	1000	16 Jul 1999
README. dami s_1004	1000	21 Jun 1999
install_dami s_1004	1000	21 Jun 1999

3.3 Changes Installed.

3.3.1 Corrector Descriptions - Technical.

1. ECP P6A-A06A-135  
A. CYCLES: None.  
B. PROGRAM: DAMIS  
C. PROBLEM: Service Area Code choice lists should be updated to remove the SACs that are not ISM sites.  
D. RESOLUTION: Update SAC choice lists with attached SAC list.  
E. ICP: P6A-AVM-10-04-A

2. ECP P6A-S370-016  
A. CYCLES: None.  
B. PROGRAM: DAMIS

P6A-AVM-10-04-A.txt

C. **PROBLEM** In DAMIS it is possible to accidentally change the SAC Code when entering SSNs in the "Enter Military Data Screens". Makes it very hard to maintain the database.

D. **RESOLUTION:** Modify the programs so data is not displayed on the screen.

E. **ICP:** P6A-AVM-10-04-A

3. **ECP** P6A-S300-020

A. **CYCLES:** None.

B. **PROGRAM** DAMIS

C. **PROBLEM** Counselors are putting in DA4465 information and it is printing out and not registering in the reports menu as being complete.

D. **RESOLUTION:** Modifies the Patient Services reports menu programs.

E. **ICP:** P6A-AVM-10-04-A

4. **ECP** P6A-S300-019

A. **CYCLES:** None.

B. **PROGRAM** DAMIS

C. **PROBLEM** The SSN shows a PPR due for 1999/02/06 even after one has been submitted and printed. Not an accurate PPR due report on all outstanding reports.

2

D. **RESOLUTION:** Modifies the programs in the Reports Menu.

E. **ICP:** P6A-AVM-10-04-A

5. **ECP** P6A-S460-008

A. **CYCLES:** None.

B. **PROGRAM** DAMIS

C. **PROBLEM** When an incomplete Patient Intake/Screening Record (PIR) is entered and saved the user correctly gets a message stating that since the PIR is incomplete, therefore, therefore; no transaction will be created and sent to USADAOA.

D. **RESOLUTION:** Modifies the DAMIS programs to check the PIR code.

E. **ICP:** P6A-AVM-10-04-A

3.3.2 Corrector Descriptions - Functional. None.

3.3.3 Summary of Changes.

a. Copy library member changes.

1. Changed: None.

2. Deleted: None.

3. Added: None.

b. Control library member changes.

1. Changed: None.

2. Deleted: None.

3. Added: None.

3.4 Adaptation Data. This paragraph has been tailored out.

3.5 Related Documents.

3.5.1 Technical Documentation Changes. A new AIX version of Software Center Operator Manual (SCOM), AISM 25-P6A-AVM-AIX-SCOM dated 10 September 1998 has been issued. This current version of AISM 25-P6A-AVM-AIX-SCOM may be obtained from:

U. S. Army Information Systems Software Center  
Executive Software Systems Directorate  
Attn: AMSEL-RD-SE-IS-ESC, H-6.

Fort Belvoir, VA 22060-5576.

3

3.5.2 Functional Manual Changes. A new AIX version of Software User Manual (SUM), AISM 25-P6A-AVM-AIX-SUM dated 01 October 1998 has been issued. This current version of AISM 25-P6A-AVM-AIX-SUM may be obtained from

U. S. Army Information Systems Software Center  
Executive Software Systems Directorate  
Attn: AMSEL-RD-SE-IS-ESC, H-6.  
Fort Belvoir, VA 22060-5576.

### 3.6 Installation Instructions.

Integrated Baseline: In the integrated baseline, the applications are to be expanded on to the Golden Master before it is sent out. Therefore, there is no specific instructions on how to install. For all ISM applications you must run install\_prg.

Install Procedure: This procedure installs ICP P6A-AVM-10-04 DAMIS R10.04 AIX version 4.2 operating system baseline onto the installation server. This portion of DENTRAD R10.04 must be installed on each server at the installation.

STEP 1. Login with the login name of "root".

STEP 2. Select a drive on the system that contains at least 300 meg of available disk space. Change directory to that drive and create a directory called "ICP.1004". Place the following files for ICP 1004 in the directory ICP.1004.

damis_1004.cpio.Z	13767179	16 Jul 1999
install_damis_1004	1456	21 Jun 1999
README.damis_1004	1158	21 Jun 1999

STEP 3. Change directory to the start directory created in step 2 and type:

```
chmod 777 install_damis_1004 <Enter>
./install_damis_1004      <Enter>
```

STEP 4. The install\_damis\_1004 will complete the following:

- uncompress and uncpio the damis\_1004.cpio.z file.
- change the ownership of and copy the files in this ICP into the home directory of user "damis".
- record all output from each of the steps performed in a file named "damis\_1004.log" located in the directory specified in STEP 2.

STEP 5. Results of the installation in damis\_1004.log should be reviewed.

4

3.6.1 Installation Effective Date. This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

3.6.2 Security Implications. This paragraph has been tailored out.

3.6.3 ANSOC Installation Instructions. All users receive the same baseline with a change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS). This change package contains the following files:

Quantity	File ID	System	Change Package No.
1	dami s_1004. cpi o. Z	AIX OS 4.2	P6A-AVM-10-04-A
	README. dami s_1004		
	install_dami s_1004		

Ensure that all master file backups have been completed prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations. Users must not, repeat, must not, make changes to the files.

Security impact: None.

3.6.4 Special Installation Instructions - All Users. None.

3.6.5 Point of Contact. If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3046.

3.6.6 Report of Implementation. Implementation of this change package must be reported by completing the change package implementation form. This report must be sent to Ft. Huachuca using Fax or mail.

3.7 Possible Problems and Known Errors. This paragraph has been tailored out.

4. Notes

4.1 Notes. This paragraph has been tailored out.
